INTRODUCING VETRACARE

Natural origins. Practical purpose.

Natural feed additives for animal health and performance.

Better animal health supports better food systems. Drawing on botanical knowledge, modern animal nutrition and formulation expertise, Vetracare develops premium natural feed additives and targeted nutritional solutions for performance, gut health, immunity, natural nutrient alternatives, and metabolic support across livestock animals.

We partner with distributors, importers and white-label businesses to bring credible, market-ready natural solutions to animal-health markets worldwide.

Find your solution in 31 products from 6 ranges.

BLOAT-X

Natural anti-bloat tonic

VetraBloat-X is a natural anti-bloat feed supplement formulated to support rumen stability in cattle, sheep and goats. Its botanical blend helps manage excess gas and fermentation, supports normal rumen motility and helps maintain a stable ruminal pH during digestive challenge.

BENEFITS

- Helps reduce gas formation and excess fermentation
- Supports rumen motility and peristaltic movement
- Helps maintain a stable ruminal pH

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	-	**30-40 mL** per animal · 2× daily	**10-15 mL** per animal · 2× daily	-
POWDER	-	**1–2 kg** per tonne feed		-
DURATION	For 3–5 days or as professionally advised			

COCCI

Intestinal cocci control

VetraCocci is a botanical feed supplement developed to support intestinal health during periods of coccidial pressure. Its targeted blend helps maintain gut integrity, manage oxidative stress and support epithelial recovery, helping animals sustain nutrient utilisation, resilience and productive performance.

BENEFITS

- Supports intestinal defence during coccidial challenge
- Helps manage oxidative stress
- Supports epithelial repair and recovery

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**500 mL–1.5 L** per 1,000 L water	**30 mL** per animal · 2× daily	**8-10 mL** per animal · 2× daily	
POWDER	**1–2 kg** per tonne feed	**1 kg** per tonne feed		
DURATION	For 3–5 days or as professionally advised			

DIGEST

Digestive stimulant

VetraDigest is a natural digestive feed supplement formulated to support appetite, digestive secretions, enzyme activity and nutrient absorption. It also helps maintain a balanced intestinal environment, supporting efficient feed utilisation, digestive comfort and consistent animal performance.

BENEFITS

- Optimises appetite, digestion and nutrient absorption
- Supports healthy intestinal microbial balance
- Promotes digestive enzyme activity

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**300–400 mL** per 1,000 L water	**60 mL** per animal · 2× daily	**15 mL** per animal · 2× daily	
POWDER	**2 kg** per tonne feed			
DURATION	Use regularly or as professionally advised			

DWORM

Gentle deworming support

VetraDworm is a palatable botanical feed supplement designed to support intestinal hygiene and natural resistance to worm pressure. Suitable for routine digestive-management programmes, it blends easily into feed or water while supporting a healthy intestinal environment across poultry and livestock.

BENEFITS

- Supports natural intestinal defence
- Provides gentle support for routine digestive care
- Great in preventive/corrective intestinal-hygiene measures

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**500 mL** per 1,000 L water	**40 mL** per animal · 2× daily	**15 mL** per animal · 2× daily	
POWDER	**1 kg** per tonne feed			
DURATION	For 7–10 days or as professionally advised. Use as part of an integrated parasite-management programme.			

PLANTA-X

Gentle placenta expellant

VetraPlanta-X is a post-partum botanical tonic formulated to support placental expulsion, mild uterine contractions and uterine recovery after calving. It helps support normal lochia discharge and reproductive recovery during the critical post-natal period.

BENEFITS

- Supports natural placental expulsion
- Promotes post-calving uterine recovery
- Helps reduce the risk of post-natal complications

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	-	**120 mL** per animal · 2× daily	**40 mL** per animal · 2× daily	
POWDER	-			
DURATION	Postpartum: 3–4 days or as professionally advised			

TOX

Natural toxin binder

VetraTox is a natural mycotoxin-management feed additive designed to bind and help neutralise mycotoxins, limit mould growth and protect feed value. The botanical formulation supports animal resilience, growth and productivity when feed quality is challenged by mould or toxin pressure.

BENEFITS

- Binds and helps neutralise mycotoxins
- Helps inhibit mould growth
- Supports feed value, growth and productivity

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**500 mL–1 L** per 1,000 L water	**50-60 mL** per animal · 2× daily	**8-10 mL** per animal · 2× daily	**10-20 mL** per animal · 2× daily
POWDER	**1–2 kg** per tonne feed			
DURATION	For 3–7 days according to mycotoxin risk. Dosage may be adjusted according to feed analysis, mycotoxin risk and professional advice.			

X

Diarrhoeal care with mineral replacement

VetraX is a multi-functional botanical intestinal-care supplement developed for periods of diarrhoeal and dysenteric stress. Its digestive, carminative and intestinal-support botanicals help maintain normal stool consistency, gut comfort, mineral balance, natural immunity and nutrient utilisation.

BENEFITS

- Supports normal intestinal motility and stool consistency
- Helps manage coccidial and amoebic pressure
- Supports natural immunity and digestive comfort

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**1 L** per 1,000 L water	**100 mL** per animal · 1× daily	**30 mL** per animal · 1× daily	**50 mL** per animal · 1× daily
POWDER	**1 kg** per tonne feed	**100 g** per animal · 1× daily	**30 g** per animal · 1× daily	**50 g** per animal · 1× daily
DURATION	For 2 days or as professionally advised			

INGREDIENT SPOTLIGHT

Neem

(Azadirachta indica)

One of our most widely used ingredients, Neem has a longstanding place in Ayurveda. It features across multiple Vetracare formulations, making it a recurring ingredient in our approach to natural animal health.

ACDFIER

Natural PH balance restorer

VetraACDfier is an organic acidifier formulated to help maintain an optimal intestinal pH and balanced microbial environment. Its blend of functional organic acids supports digestive enzyme activity, nutrient uptake, feed hygiene and consistent growth performance across poultry and livestock.

BENEFITS

- Helps maintain healthy intestinal pH
- Supports antibacterial and antifungal control
- Promotes digestion, growth and productive performance

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**1 L** per 1,000 L water			
POWDER	**1–2 kg** per tonne feed			
DURATION	Use regularly or as professionally advised			

C

Rehydration with mineral replacement

VetraC is an electrolyte and energy supplement designed to support rapid rehydration during heat stress, transport, recovery and other periods of increased fluid demand. Its balanced combination of electrolytes and sucrose helps restore fluid, mineral and acid-base balance while providing readily available energy.

BENEFITS

- Supports rehydration and electrolyte balance
- Replaces minerals lost during stress
- Provides a readily available source of energy

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**2.5 L** per 1,000 L water	**40 mL** per animal · 1× daily	**15 mL** per animal · 1× daily	
POWDER	**2.5 kg** per tonne feed			
DURATION	**Liquid**: For 3-5 days heat stress, dehydration or electrolyte loss | **Powder**: Use during heat stress, transportation, dehydration or other periods of increased electrolyte requirement.			

DSTRESS

Calming anti-stress supplement

VetraDstress is a natural adaptogenic feed supplement developed for heat, climate changes, transport, feed transitions and high-production periods. Its botanical blend supports calm behaviour, metabolic stability and resilience, helping animals maintain growth and productivity under challenging conditions.

BENEFITS

- Helps animals adapt to environmental change
- Supports resilience during transport and handling
- Promotes fitness, growth and productivity

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**500 mL** per 1,000 L water	**30 mL** per animal · 1× daily	**8-10 mL** per animal · 1× daily	
POWDER	**1 kg** per tonne feed			
DURATION	For 5–7 days or during periods of stress, transportation, vaccination, feed changes or other stressful conditions			

VIRAL-X

Natural antiviral and immune support

VetraViral-X is a botanical feed supplement formulated to strengthen natural immune defence during periods of viral pressure, including respiratory challenge. Combining immune, antioxidant and antimicrobial botanical activity, it supports resilience, recovery and the maintenance of respiratory, digestive and productive performance.

BENEFITS

- Supports resilience during common viral challenges
- Helps maintain respiratory and digestive performance
- Strengthens the natural immune response

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**300 mL** per 1,000 L water	**50 mL** per animal · 2× daily	**25 mL** per animal · 2× daily	
POWDER	**1-2 kg** per tonne feed			
DURATION	For 5–7 days or as professionally advised			

CHOLINE

Natural choline chloride alternative

VetraCholine is a concentrated natural alternative to synthetic choline chloride, formulated to provide choline- and biotin-related nutritional activity. It supports fat transport, cell-membrane integrity, metabolism and liver health while promoting efficient growth and productive performance.

BENEFITS

- Supports fat metabolism and liver health
- Promotes cell growth and protein utilisation
- Supports weight gain, liveability and production

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	-			
POWDER	**250 g** per tonne feed	**250-500 g** per tonne feed		
DURATION	Mix thoroughly into the complete feed. Use continuously or according to the feed formulation.			

GROW

Natural growth promoter

VetraGrow is a natural growth-promoting feed supplement combining adaptogenic, hepatoprotective and intestinal-support botanicals. It helps maintain immunity, feed utilisation, liveability and healthy weight gain, supporting consistent animal performance across key production stages.

BENEFITS

- Supports healthy growth and feed utilisation
- Strengthens natural immunity
- Promotes liveability and production quality

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**500 mL** per 1,000 L water	**40-60 mL** per animal · 1× daily	**8-12 mL** per animal · 1× daily	
POWDER	**1 kg** per tonne feed			
DURATION	For 5–7 days or as professionally advised			

LYSINE

Natural L-lysine alternative

VetraLysine is a botanical alternative to synthetic L-lysine developed to support protein synthesis, lean growth, calcium utilisation and connective-tissue development. It helps maintain efficient energy use, structural development, liver health and production quality across animal species.

BENEFITS

- Supports protein synthesis and lean growth
- Promotes calcium absorption and structural development
- Helps maintain production quality and liver health

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	-			
POWDER	**1 kg** per tonne feed			
DURATION	Mix thoroughly into the complete feed. Use continuously or according to the feed formulation.			

METHIO

Natural DL-methionine alternative

VetraMethio is a natural alternative to synthetic DL-methionine formulated to support methyl-donor activity, protein utilisation, energy metabolism and liver health. Designed for feed formulation across species, it supports optimum growth, production quality, early weight gain and immune performance.

BENEFITS

- Supports optimum growth and protein utilisation
- Promotes production quality and early weight gain
- Helps maintain liver health and immune performance

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	-			
POWDER	**1 kg*** per tonne feed			
DURATION	* Any adjustment to supplemental DL-methionine must be based on complete-feed analysis, species requirements and a validated nutritional matrix			

POWER

Natural immunity booster

VetraPower is a broad-spectrum botanical feed supplement developed to support immune function and metabolism during nutritional deficiency, disease pressure, medication, pollution and high-production periods. It helps strengthen natural resistance and maintain resilience when animals face elevated physiological demands.

BENEFITS

- Supports immune function and metabolism
- Promotes overall condition and well-being
- Helps animals withstand production stress

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**300 mL** per 1,000 L water	**20 mL** per animal · 1× daily	**5 mL** per animal · 1× daily	
POWDER	**1 kg** per tonne feed			
DURATION	Use 3 days per week or as professionally advised			

INGREDIENT SPOTLIGHT

Ashwagandha

(Withania somnifera)

Ashwagandha is an Ayurvedic powerhouse, celebrated for supporting stress, resilience, immunity, energy and performance. Used across several Vetracare formulations, this remarkable herb helps animals stay stronger, calmer and more adaptable.

HEAT

Female reproductive performance support

VetraHeat is a botanical reproductive supplement developed to support libido, reproductive readiness and post-natal recovery in female animals. Its targeted formulation helps promote timely return to reproductive cycles and supports consistent breeding performance.

BENEFITS

- Supports sexual appetite and reproductive readiness
- Promotes female reproductive performance
- Supports post-natal recovery

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	-			
POWDER	-	**100 g** per animal · 2× daily	**50 g** per animal · 2× daily	
DURATION	Mix with feed for 3–4 days or as professionally advised			

K

Natural kidney tonic

VetraK is a botanical kidney and urinary-support supplement formulated to maintain healthy renal function and urinary flow. Its diuretic, anti-urolithic and antimicrobial botanical activity helps support urinary tract health, discourage stone formation and maintain performance during urinary challenge.

BENEFITS

- Supports kidney and urinary tract function
- Helps discourage urinary stone formation
- Promotes healthy urine flow and productive growth

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**1 L** per 1,000 L water	**30-40 mL** per animal · 1× daily	**10-15 mL** per animal · 1× daily	
POWDER	**500 g - 1 kg** per tonne feed	**1-2 kg** per tonne feed		
DURATION	For 3–5 days or as professionally advised			

LEAN

For leaner meat production

VetraLean is a natural performance feed additive developed to support efficient growth, lean tissue development and metabolic balance in production animals. Its botanical formulation helps maintain body composition, carcass quality and desirable meat characteristics while supporting productive efficiency.

BENEFITS

- Supports lean tissue development
- Promotes metabolic and detoxification support
- Helps maintain carcass and meat quality

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	-			
POWDER	**500 g–1 kg** per tonne feed	**1–2 kg** per tonne feed		
DURATION	Use regularly during the growing and finishing period or as advised by an animal nutritionist			

LIB

Male reproductive performance booster

VetraLib is a natural reproductive supplement formulated to support libido and breeding performance in male animals. Its botanical blend supports semen quality, sperm count, motility and viability while helping reduce reaction time for more consistent reproductive performance.

BENEFITS

- Supports male reproductive performance
- Helps reduce reaction time
- Supports sperm count, motility and viability

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**Male breeders: 200 mL** per 1,000 L water	**Bulls: 20–30 mL** per animal · 1× daily	**Rams, bucks and boars: 5 mL** per animal · 1× daily	
POWDER	**Male breeders: 1-2 kg** per tonne feed of male-breeder feed	**3 g / 100 kg body weight** mixed in feed · 1x daily		
DURATION	For 7–10 days or as professionally advised			

LIV

Natural liver support

VetraLiv is a natural hepatoprotective feed supplement developed to support liver function, detoxification and efficient metabolism. Its botanical blend promotes nutrient utilisation and liver-cell recovery while supporting weight gain, liveability and productive performance during nutritional and production stress.

BENEFITS

- Supports healthy liver function and detoxification
- Promotes metabolism and feed utilisation
- Supports growth, weight gain and liveability

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**1 L** per 1,000 L water	**40-60 mL** per animal · 1× daily	**8-12 mL** per animal · 1× daily	
POWDER	**1 kg** per tonne feed			
DURATION	For 7–10 days or as professionally advised			

RESP

Respiratory health support

VetraResp is a natural respiratory-support formulation combining expectorant, mucolytic and antimicrobial botanicals. It helps maintain clear airways, respiratory comfort, appetite and natural respiratory defence, including during periods of environmental or post-vaccination stress.

BENEFITS

- Supports clear airways and respiratory comfort
- Helps maintain appetite and liveability
- Supports natural respiratory defence

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**300 mL** per 1,000 L water	**30 mL** per animal · 2× daily	**8-10 mL** per animal · 2× daily	
POWDER	**1-2 kg** per tonne feed			
DURATION	For 3–5 days or as professionally advised			

ABC

Amino acids with B-complex and vitamin C

VetraABC is a comprehensive amino-acid and B-complex feed supplement enhanced with vitamin C. Formulated to support metabolism, growth and immune function, it also helps animals maintain condition and performance during heat, transport and disease-related stress.

BENEFITS

- Supports metabolism and healthy growth
- Helps animals withstand stress-related conditions
- Promotes weight gain and immune function

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**1 L** per 1,000 L water	**100 mL** per animal · 1× daily	**50 mL** per animal · 1× daily	
POWDER	**1 kg (up to 2 kg during pronounced stress or recovery)** per tonne feed			
DURATION	For 5–7 days during stress, reduced feed intake or recovery			

CALP

Calcium, phosphorus and vitamins

VetraCalP is a mineral and vitamin feed supplement formulated to support skeletal development, muscle function, blood clotting and productive growth. Its calcium, phosphorus and vitamin blend provides targeted nutritional support during periods of high mineral demand.

BENEFITS

- Supports bone formation and structural strength
- Helps reduce fatigue and skeletal deformation
- Promotes growth and productive performance

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**1-2 L** per 1,000 L water	**100 mL** per animal · 1× daily	**20 mL** per animal · 1× daily	**20-30 mL** per animal · 1× daily
POWDER	**2–3 kg** per tonne feed	**50-100 g** per animal · 1× daily	**2-3 kg** per tonne feed	
DURATION	**Liquid**: For 7–10 days or according to nutritional requirements | **Powder**: Adjust according to the calcium and available-phosphorus content of the complete ration			

MIN-A

Natural vitamin A activity

VetraMin-A is a botanical feed supplement designed to provide key vitamin A-related nutritional functions. Suitable for feed or drinking-water programmes, it supports immune response, growth, liveability and productive performance while helping reduce deficiency-related setbacks.

BENEFITS

- Supports immune response and liveability
- Promotes growth and production
- Helps reduce deficiency-related losses

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**500 mL** per 1,000 L water	**20 mL** per animal · 1× daily	**5 mL** per animal · 1× daily	**5-10 mL** per animal · 1× daily
POWDER	**500 g** per tonne feed	**10-20 g** per animal · 1× daily	**2-5 g** per animal · 1× daily	
DURATION	**Liquid**: For 3–5 days during increased nutritional demand | **Powder**: Account for Vitamin A already supplied by the complete feed and other supplements			

MIN-C

Natural vitamin C support

VetraMin-C is a natural vitamin C-support feed supplement formulated for heat stress, antioxidant defence, immunity and productive growth. Its botanical blend helps maintain liveability and resilience when environmental or nutritional demands increase.

BENEFITS

- Supports antioxidant defence and immunity
- Helps maintain liveability during heat stress
- Promotes fertility and healthy growth

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**1-2 L** per 1,000 L water	**50 mL** per animal · 1× daily	**10 mL** per animal · 1× daily	**10-20 mL** per animal · 1× daily
POWDER	**1–2 kg** per tonne feed	**50 g** per animal · 1× daily	**1-2 kg** per tonne feed	
DURATION	**Liquid**: For 3–5 days during heat, transportation, vaccination or other periods of stress **Powder**: Use the lower dose for routine nutritional support and the higher dose during pronounced stress			

MIN-E

Natural vitamin E support

VetraMin-E is a highly bioavailable natural vitamin E-support formulation with alpha-tocopherol-related activity. It helps protect cells and lipids from oxidative damage while supporting immune function, recovery and productive performance during periods of elevated physiological stress.

BENEFITS

- Supports antioxidant and cellular defence
- Promotes immunity and recovery
- Helps protect lipids from oxidative damage

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**1 L** per 1,000 L water	**20 mL** per animal · 1× daily	**5 mL** per animal · 1× daily	**5-10 mL** per animal · 1× daily
POWDER	**1 kg** per tonne feed	**20 g** per animal · 1× daily	**1 kg** per tonne feed	
DURATION	**Liquid**: For 3–5 days during increased nutritional demand or stress **Powder**: Account for Vitamin E supplied by the complete feed and other supplements			

MINMIX

Complete nutritional mixture

VetraMinMix is a broad multi-nutrient feed supplement combining B-complex vitamins with natural lysine, methionine, choline and probiotics. It supports gut health, feed conversion, liver function, stress resilience, weight gain and production quality across poultry and livestock.

BENEFITS

- Supports feed conversion and stress resilience
- Helps maintain gut and liver health
- Promotes weight gain and production quality

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	-			
POWDER	**5 kg** per tonne feed	**50 g** per animal · 1× daily	**5 kg** per tonne feed	
DURATION	Adjust according to the mineral and vitamin content of the complete ration. Use cautiously in sheep and account for all other sources of copper and selenium.			

MV

Essential multivitamin feed supplement

VetraMV is a balanced multivitamin feed supplement developed to support nutritional homeostasis, growth, immunity and production across key livestock species. It provides broad everyday vitamin support to help prevent deficiency-related setbacks throughout the production cycle.

BENEFITS

- Provides a broad blend of essential vitamins
- Supports immunity, growth and production
- Helps prevent vitamin-deficiency syndromes

DOSAGE	POULTRY	CATTLE	SHEEP / GOAT	SWINE
LIQUID	**500 mL-1 L** per 1,000 L water	**20 mL** per animal · 1× daily	**5 mL** per animal · 1× daily	**5-10 mL** per animal · 1× daily
POWDER	-			
DURATION	For 3–5 days during stress, vaccination, transportation, reduced feed intake or recovery. Use the lower dose for routine support and the higher dose during pronounced nutritional stress.			

INGREDIENT SPOTLIGHT

Haldi / Turmeric

(Curcuma longa)

More than a golden spice, turmeric helps animals manage oxidative stress and maintain a healthy inflammatory response. Vetracare uses it in selected formulations to support mobility, recovery and long-term resilience.

CLEAN

Animal-friendly floor disinfectant

VetraClean is a biodegradable botanical disinfectant and deodoriser developed for animal-housing environments. Its essential-oil blend supports broad-spectrum hygiene across floors, walls and equipment while providing a practical natural option for routine farm cleaning programmes.

BENEFITS

- Supports germicidal, fungicidal and virucidal cleaning
- Suitable for animal-housing environments
- Biodegradable and naturally deodorising

INSTRUCTIONS

Routine cleaning and deodorising	Light cleaning
Dilute 10 mL in 1 L of water	Dilute 5 mL in 1 L of water

Remove visible dirt and organic matter before application. Apply sufficient solution to wet the surface, leave for at least 10 minutes and allow to dry.

NOTE
- Always wear rubber gloves/boots while cleaning.
- Thoroughly wash hands and equipment after use.
- For external use only.

CLEAN+

Heavy-duty animal-friendly disinfectant

VetraClean+ is an enhanced botanical disinfectant and deodoriser developed for heavier-duty farm hygiene. Combining essential oils with additional antimicrobial botanicals, it supports effective cleaning of animal facilities, barn surfaces, equipment and livestock transport vehicles.

BENEFITS

- Cleans and deodorises animal facilities
- Suitable for barn surfaces and transport vehicles
- Provides enhanced botanical antimicrobial support

INSTRUCTIONS

Routine facility hygiene	Heavy contamination
Dilute 2.5 mL in 1 L of water	Dilute 5 mL in 1 L of water

Thoroughly clean surfaces before application. Apply sufficient solution to wet the surface and allow at least 20 minutes of contact time before drying.

NOTE
- Always wear rubber gloves/boots while cleaning.
- Thoroughly wash hands and equipment after use.
- For external use only.

6 Ranges. 31 Products.

One complete natural health portfolio

Cleanse

7 products

For gut health and digestive stability

- **Bloat-X** — Natural anti-bloat tonic
- **Cocci** — Intestinal cocci control
- **Digest** — Digestive stimulant
- **Dworm** — Gentle deworming support
- **Planta-X** — Gentle placenta expellant
- **Tox** — Natural toxin binder
- **X** — Diarrhoeal care with mineral replacement

Target

6 products

For focused organ and reproductive support

- **Heat** — Female reproductive performance support
- **K** — Natural kidney tonic
- **Lean** — For leaner meat production
- **Lib** — Male reproductive performance booster
- **Liv** — Natural liver support
- **Resp** — Respiratory health support

Support

2 products

For animal-friendly hygiene and farm environments

- **Clean** — Animal-friendly floor disinfectant
- **Clean+** — Heavy-duty animal-friendly disinfectant

Essentials

4 products

For hydration, stress support and everyday resilience

- **ACDfier** — Natural pH balance restorer
- **C** — Rehydration with mineral replacement
- **Dstress** — Calming anti-stress supplement
- **Viral-X** — Natural antiviral and immune support

Power

5 products

For performance, growth and nutrient alternatives

- **Choline** — Natural choline chloride alternative
- **Grow** — Natural growth promoter
- **Lysine** — Natural L-lysine alternative
- **Methio** — Natural DL-methionine alternative
- **Power** — Natural immunity booster

Vitamins

7 products

For targeted vitamins, minerals and nutritional support

- **ABC** — Amino acids with B-complex and vitamin C
- **CalP** — Calcium, phosphorus and vitamins
- **Min-A** — Natural vitamin A activity
- **Min-C** — Natural vitamin C support
- **Min-E** — Natural vitamin E support
- **Minmix** — Complete nutritional mixture
- **MV** — Essential multivitamin feed supplement

Let's build better animal health, together
